RACE FORMAT:

Drivers will be randomly drawn for time trials. Any driver that does not record a time in time trials will go to the rear of both of their heats.

There will be 2 rounds of 4 heats.

The top 40 cars will qualify straight through to the 4 heats with the fastest qualifier to the front of heat 1, second to the front of heat 2.

There will be a last chance 'odd' qualifier for cars that time trial 41st to 71st with the top 4 transfers taking the 11th position in the 4 heat races.

There will be a last chance 'even' qualifier for cars that time trial 42nd to 72nd with the top 4 transfers taking the 12th position in the 4 heat races.

If there are more than 72 cars, 73rd onwards will be excluded from the remainder of the meeting.

The second round of heats will be determined by inverting the first round draw and moving rows to different heats.

There will be 4 cars to transfer from the C main to the rear of the B main and 2 cars to transfer from the B main to the rear of the A main. The A main will consist of 18 cars.

Heat races will be conducted over 10 laps, C main 15 laps, B main 20 laps and A main will be 30 laps. There will be no reserves for the C, B or A Mains.

A MAIN event will be scheduled for a 10.30pm start.

POINTS SCHEDULE:

The following example is based on 4 heats, if there are more than 48 cars the time trials points will be grouped in blocks of 5 instead of 4 etc.

To split any cars on equal points the car that has recorded the fastest lap during time trials, using the transponder system, will be determined the higher qualifier.
